

Protect Against Flu, RSV, and COVID-19!

These diseases can be life-threatening

Patients and staff depend on each other to prevent severe illness, hospitalization, and death.

Protect Yourself and Your Community

Ask your doctor or health team for:

- ☐ Flu vaccine
- ☐ COVID-19 vaccine(s)
- ☐ RSV vaccine (for people 60 years or older at high-risk)
- ☐ Other recommended vaccines such as pneumococcal, shingles, and Tdap.

It's convenient and safe to receive all the vaccines you need on the same day!

Get vaccinated at:

IMM-1413 (8/23)
